Step One

Cut the pieces for the sides, dividers, and shelf supports. Secure the shelf supports to the bottom of each piece (and both sides of each taller divider as well as the middle divider) then secure using glue and 1-1/4" brad nails. Allow $\frac{3}{4}$ " on each side of the supports for the kick plates.

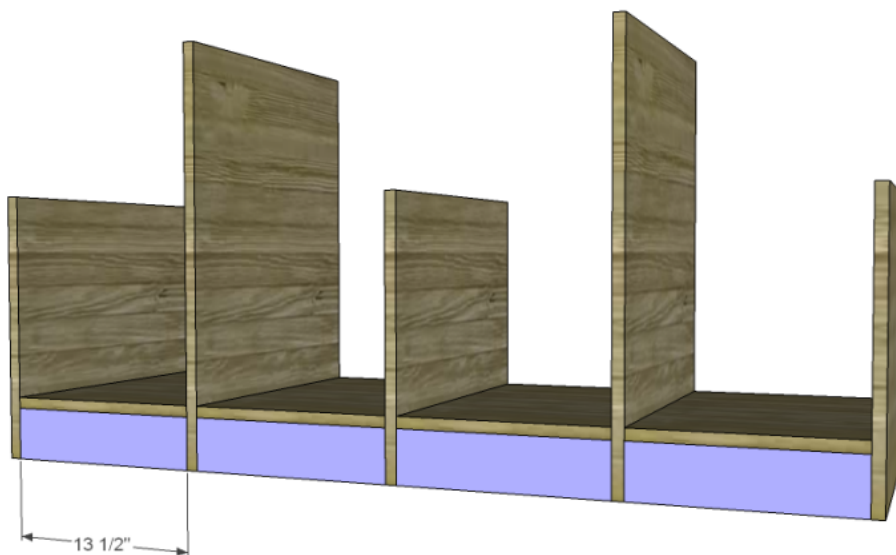

Step Two

Cut the pieces for the shelves. Secure to the top of the supports using glue and 1-1/4" brad nails.

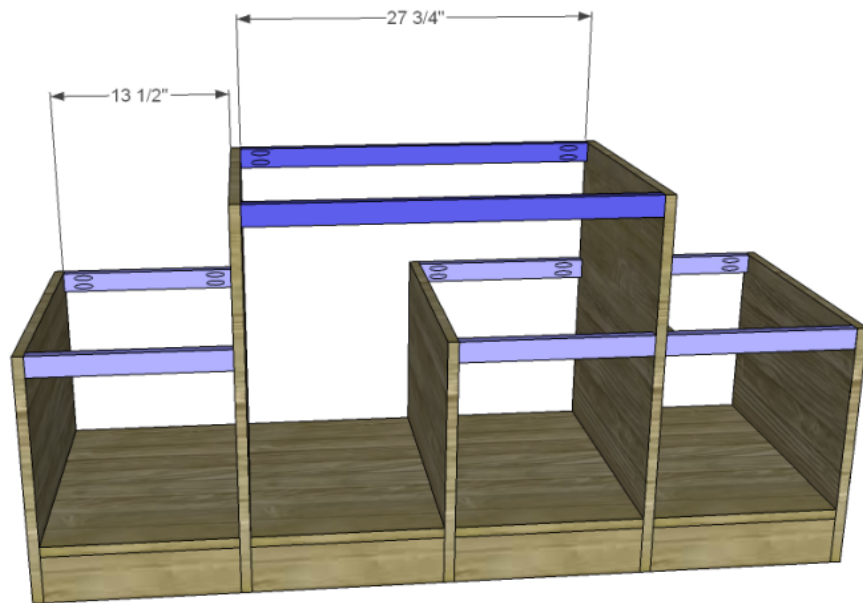

Step Three

Cut the pieces for the kick plates. Secure to both the front and the back using glue and 1-1/4" brad nails.

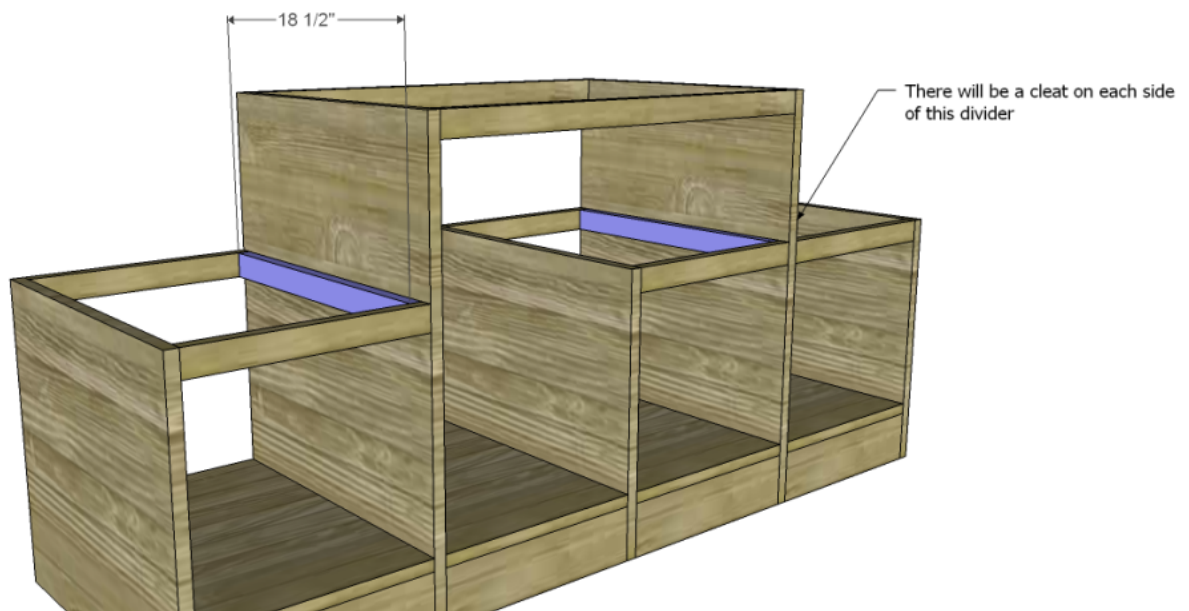

Step Four

Cut the pieces for the stretchers and drill pocket holes in each end. Position as shown, then secure using glue and 1-1/4" pocket hole screws.

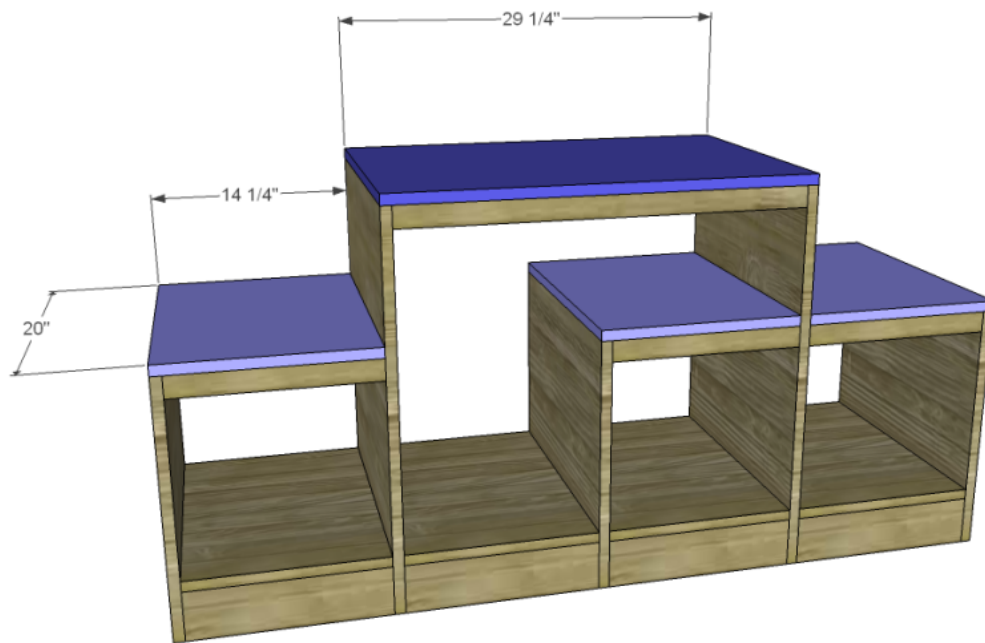

Step Five

Cut the pieces for the cleats. Secure as shown using glue and 1-1/4" brad nails.

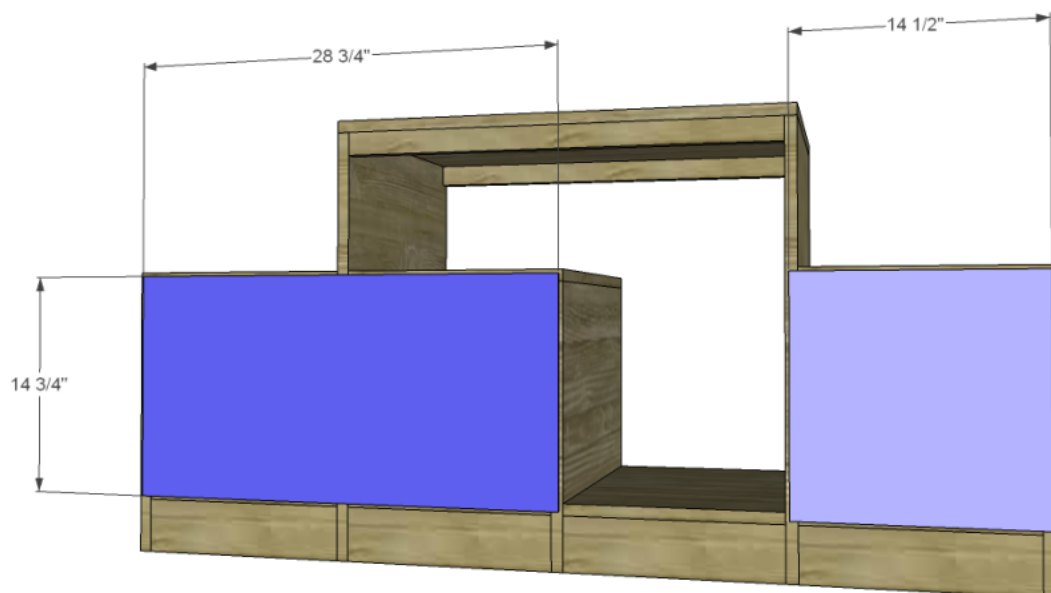

Step Six

Cut the pieces for the tops. Position as shown, then secure using glue and 1-1/4" brad nails.

Step Seven

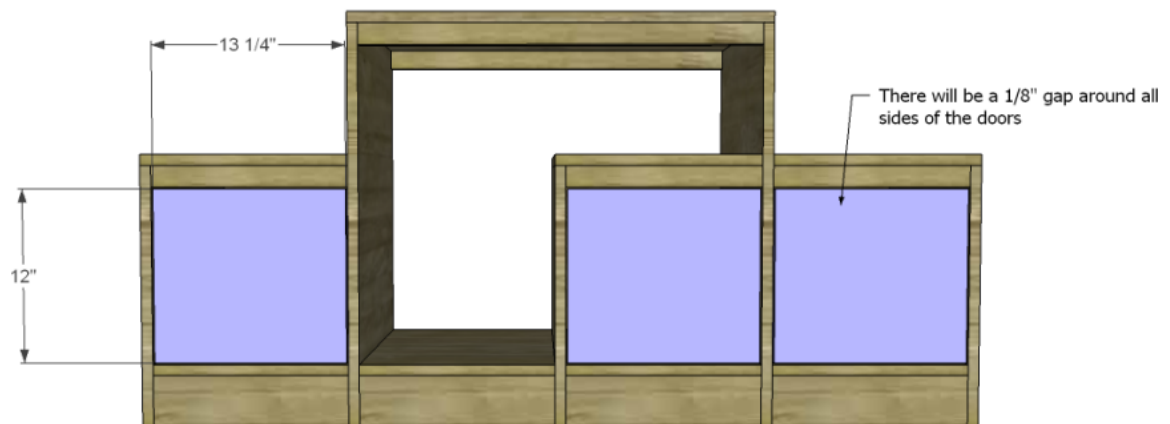

Cut the pieces for the backs. Position as shown, then secure using glue and 1-1/4" brad nails.

Step Eight

Cut the pieces for the doors. There will be a 1/8" gap around all sides of the door. Install the hinges according to the

manufacturer's instructions, then install the cabinet pulls.

Finish as desired!
